607 Dewey N.W. True North Architecture, Construction and Investments announce in October, 2008, that it was anxious to spend \$1.9 million to renovate and add a third story to this vacant 2-story brick commercial structure. The existing building has 5,000 square feet of space on each floor. The plans included a green roof, solar panels, and wind turbines. The firm was awaiting extension of the property's Renaissance Zone status.
