100 Garden S.E. The Kindel Furniture Co. built its 3- and 4-story factory here in 1912. The company was the last large residential furniture manufacturer in Grand Rapids, for many years specializing in high-end reproductions of fine and classical furniture. Kindel merged with The Taylor Corporation in August, 2011, and began moving its operations to the old Lear plant on Eastern Avenue in Wyoming. The building had been listed for sale or lease. On Monday, May 9, 2011, it was in the process of being stripped for renovations when a spark from a power saw apparently ignited a drained lacquer line on the top floor. The resulting spectacular fire destroyed the western two-thirds of the structure.
