

**Leffingwell Avenue, N.E.**

Leffingwell Avenue Bridge. This bridge over the Grand Trunk R.R. was built in 1981 to replace an ancient wooden structure which was unable to support truck traffic. City fire equipment was not allowed to pass over the old bridge. The new bridge has a designation of BRO 41 (120) MCS 41011. Williams & Works, Inc., was the engineer. Red Cedar Construction, Inc., was the contractor.
